SUMMARY

I'm passionate about creating efficient and scalable solutions to complex problems. All coding projects are built from the ground up, from planning and designing to solving real-life problems with code, and I'm always looking for opportunities to collaborate with other developers. Feel free to contact me via my socials to discuss any projects or ideas you have in mind.

SKILLS

Languages: Java, SQL, Python, JavaScript, HTML, CSS.

Technologies: Node.js, React, Tailwind, Bootstrap.
